## PROFESSIONAL SUMMARY

Computer Science & Engineering student and aspiring **AI Full Stack Developer** with hands-on experience building scalable web applications using **React, Python, FastAPI, JavaScript (ES6+), and PostgreSQL**. Solid foundation in full-stack web architecture, REST API design, SQLAlchemy ORM, Data Science concepts, and Cybersecurity fundamentals. Proven learning trajectory reinforced by virtual technology simulations at Deloitte and J.P. Morgan. Seeking software engineering internship opportunities to deliver clean, scalable, and secure application solutions.

## TECHNICAL SKILLS

**Languages:** Python, JavaScript (ES6+), HTML5, CSS3, SQL

**Frameworks & Libraries:** React, FastAPI, Tailwind CSS

**Databases & ORM:** PostgreSQL, SQLAlchemy, Relational Database Management Systems (RDBMS)

**APIs & Tools:** REST APIs, Git, GitHub, VS Code, Postman

**Core Domains:** Data Science & Analytics Basics, Cybersecurity Fundamentals, AI Application Integration, CRUD Systems Architecture

## WORK & VIRTUAL EXPERIENCE

### Full Stack Web Development Intern — *Future Interns*

July 2026 – August 2026

- Developed end-to-end web applications by implementing responsive frontend user interfaces and robust backend service logic.
- Followed clean architecture principles and industry coding practices to optimize application maintainability and performance.
- Utilized **Git** and **GitHub** for version control, repository maintenance, and collaborative code reviews.

### Technology, Data & Cyber Virtual Experience — *Deloitte*

Virtual Internship

- Gained foundational exposure to core **Data Analytics & Data Science** workflows, data modeling, and performance dashboards.
- Examined enterprise **Cybersecurity** practices including network access controls, threat mitigation, and log analysis concepts.

### Software Engineering Virtual Experience — *J.P. Morgan*

Virtual Internship

- Completed hands-on engineering tasks centered around software interface design, financial data feed integration, and system analysis.

## FEATURED PROJECTS

### Personal Portfolio Website | [React](#), [JavaScript \(ES6+\)](#), [Tailwind CSS](#), [HTML5/CSS3](#)

- Designed and engineered a fully responsive personal portfolio website to showcase software projects, technical skills, and professional experience.
- Built dynamic, reusable React components and implemented smooth UI animations and layout styling with **Tailwind CSS**.
- Optimized performance, cross-browser compatibility, and mobile responsiveness following modern web accessibility standards.

### Full-Stack CRUD Application | [React](#), [FastAPI](#), [Python](#), [PostgreSQL](#), [REST APIs](#)

- Engineered a scalable full-stack application providing seamless Create, Read, Update, and Delete (CRUD) data operations.
- Built modular **REST APIs** using FastAPI and Python to handle business logic securely.
- Integrated a relational **PostgreSQL** database schema for reliable structured data storage and management.

### AI Resume Analyzer | [React](#), [FastAPI](#), [Python](#), [SQLAlchemy](#)

- Engineered an AI-driven resume evaluation application designed to process text inputs and generate actionable career feedback.

- Developed modular React components and backend API endpoints using **FastAPI** and **SQLAlchemy** for efficient data access and low-latency processing.

## EDUCATION

**Bachelor of Technology in Computer Science and Engineering**

**Expected Graduation: 2028**

*Andhra University College of Engineering, Visakhapatnam, India*

## CERTIFICATIONS & TRAINING

- **Data Analytics & Cybersecurity Virtual Experience** — Deloitte
- **Software Engineering Virtual Experience** — J.P. Morgan
- **Artificial Intelligence Course Completion** — HP LIFE
